- Support to keep & edit ID3 tags for each track.
- Convert local audio files to MP3/M4A/AAC/WAV/OGG/AIFF.
- 1-click to burn Spotify music to CD.

System Requirements

- Windows 7, 8, 10, 11 (32-bit & 64-bit).
- 512M or higher RAM.
- 1G Hz Intel processor or above CPU.
- 1024*768 resolution display or higher Monitor.

PURCHASE & REGISTRATION

- [Purchase Windows Version of AudiFab Spotify Music Converter](#)
- [Register Windows Version of AudiFab Spotify Music Converter](#)

Purchase Windows Version of AudiFab Spotify Music Converter

Quick Link: To buy a license key for the Windows version of AudiFab Spotify Music Converter, click [Here](#).

1. Why should I buy Windows version of AudiFab Spotify Music Converter?

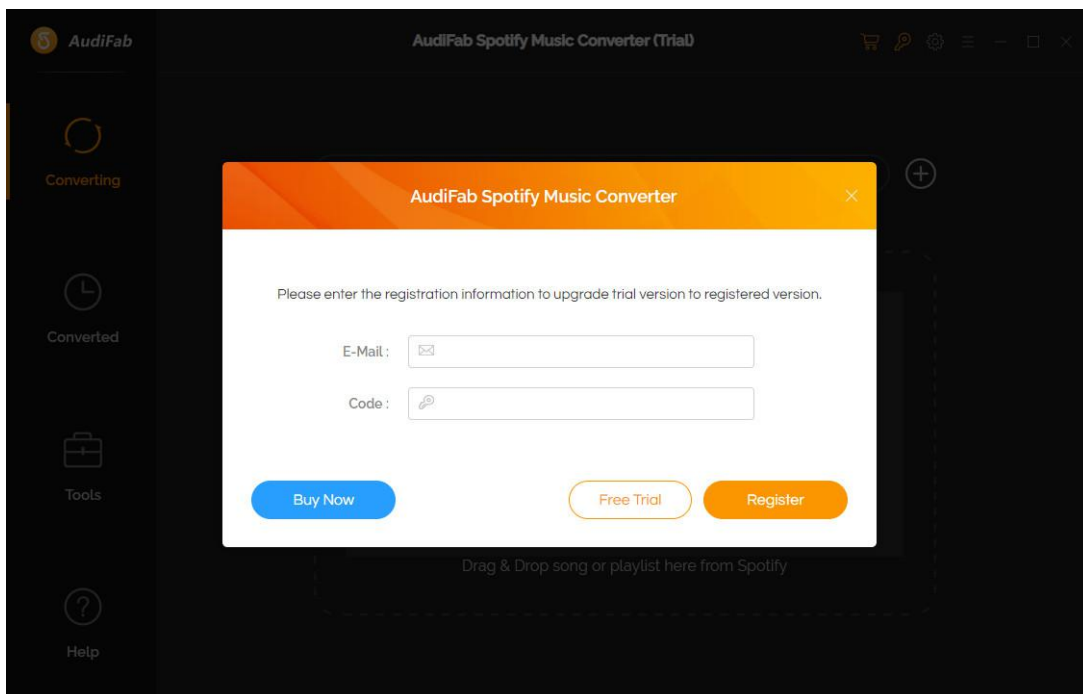

AudiFab Spotify Music Converter Windows version is a shareware, and the trial version limits users to convert the **first 3 minutes** for each audio for sample testing. After purchasing the program, you will be offered a license with your registration e-mail and key code which will unlock the trial version limitation.

2. What benefits do I have after registration?

- You can **convert Spotify songs without time limitation**.
- You can enjoy lifetime FREE upgrades to the latest versions of the same product.
- You can enjoy FREE technical supports.

Register AudiFab Spotify Music Converter for Windows

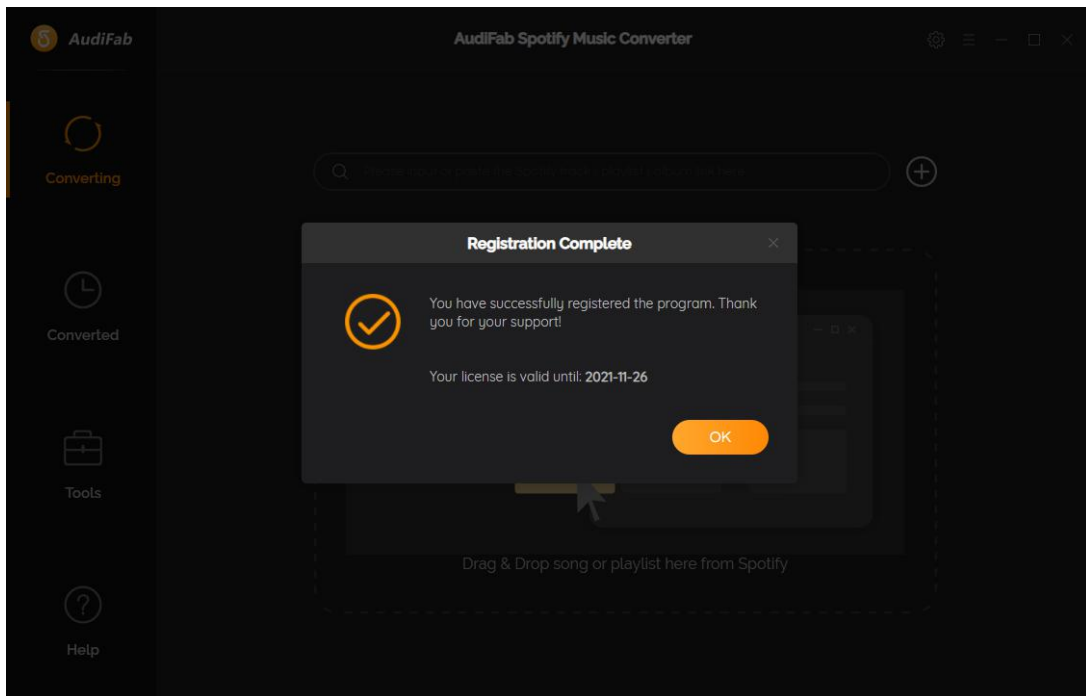

Step 1: Run AudiFab Spotify Music Converter on PC, and click the '🔑' icon to open the registration dialog and fill in with your registration info.

Import Spotify Music

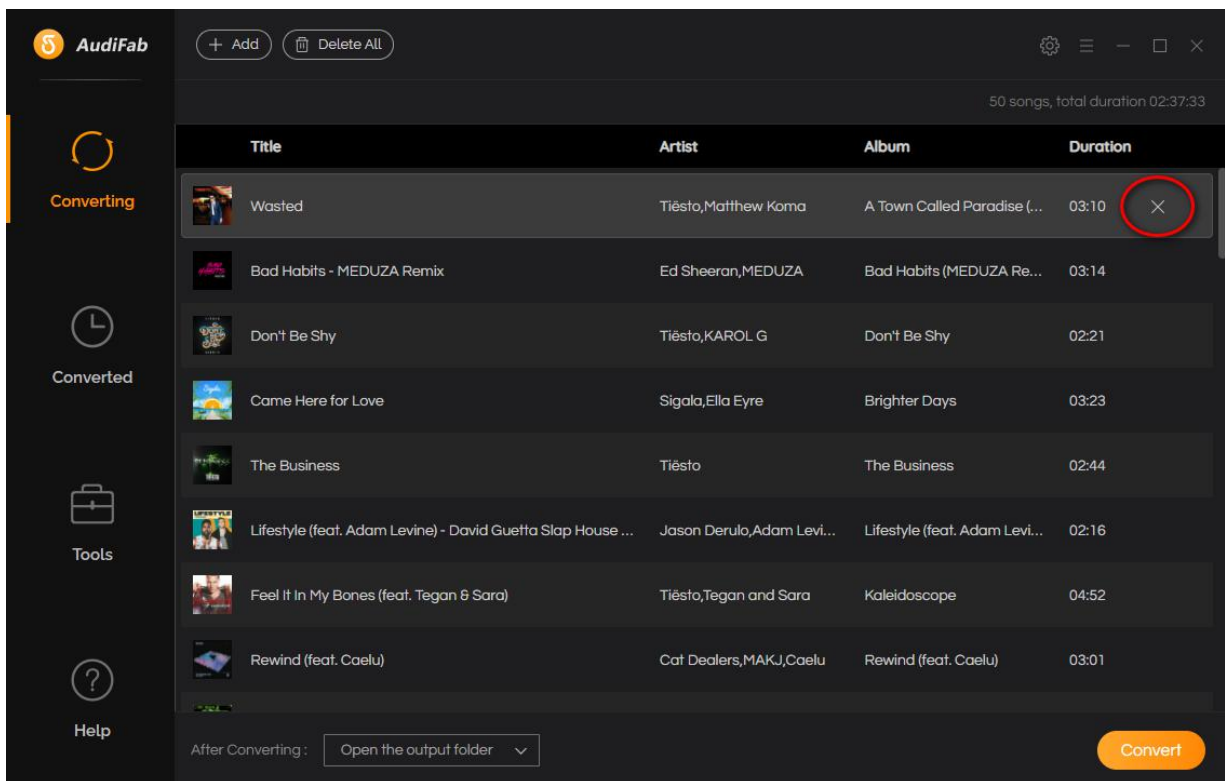

Drag & drop songs, an album, or a playlist from the Spotify app to AudiFab. AudiFab would read the URL automatically and list out the songs. Check the titles that you'd like to export to your local drive and then click **OK**.

Delete Spotify Music

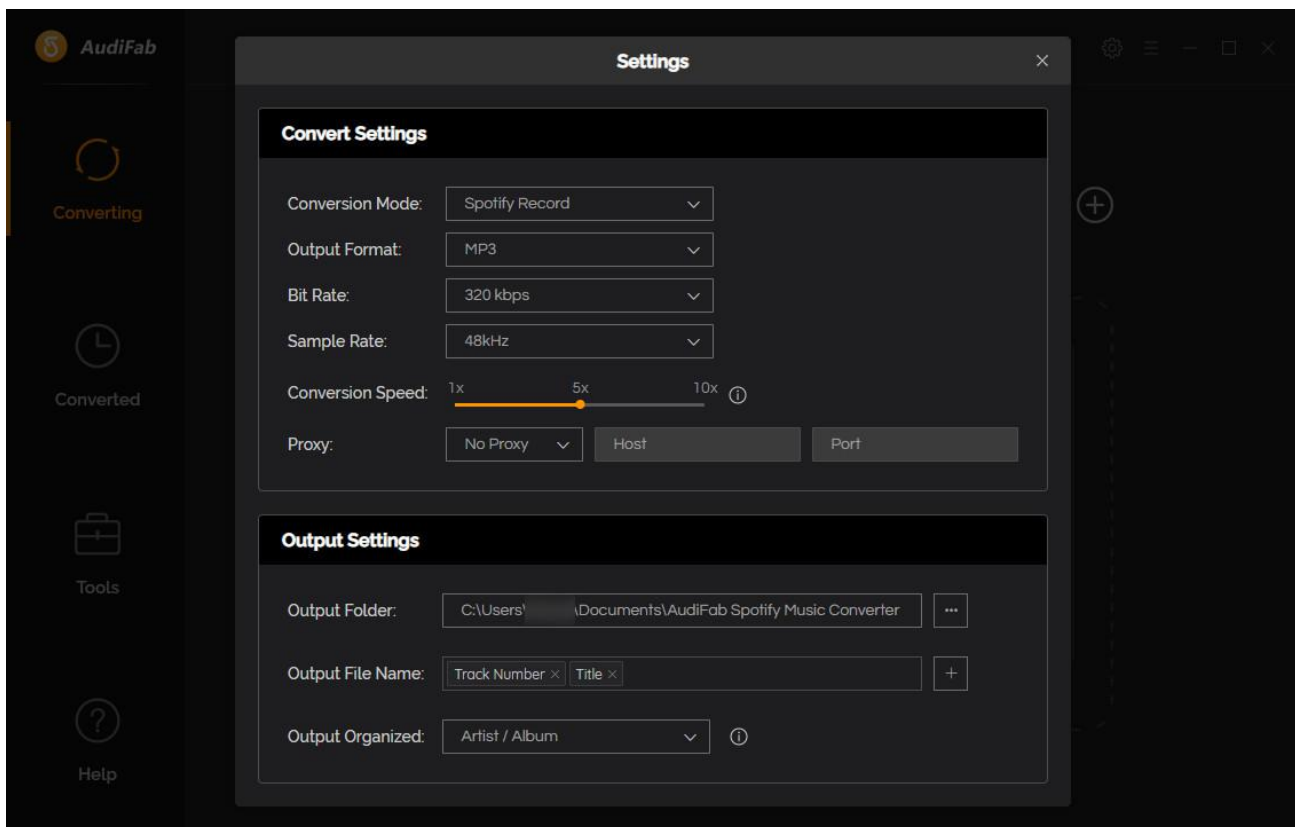

After clicking OK, all tracks that you need to convert will be listed below. If you still want to **delete some files** now, just move your mouse on the file and there is a small **X** to delete the file. If you think you don't want all of them, there is a  button.

Adjust Output Settings

Click the  button, a window will pop-up, allowing you to choose the **output format** (MP3/AAC/WAV/FLAC/AIFF/ALAC), specify the **output folder**, customize how you'd like to name and sort out the converted files, etc. On the lower section of setting window, you can specify output folders organized by Artist, Album, Artist/ Album, Album/ Artist or None.

Convert Spotify Music

Click the **Convert** button and AudiFab would immediately start exporting the Spotify songs to your computer.

The screenshot shows the AudiFab application window. At the top, a message states: "* Spotify is now connected, please do not operate it during the conversion." Below this, a progress bar indicates "Converting progress: 50% (4/6)". The main area contains a table of songs with columns for Title, Artist, Album, and Duration. The songs listed are:

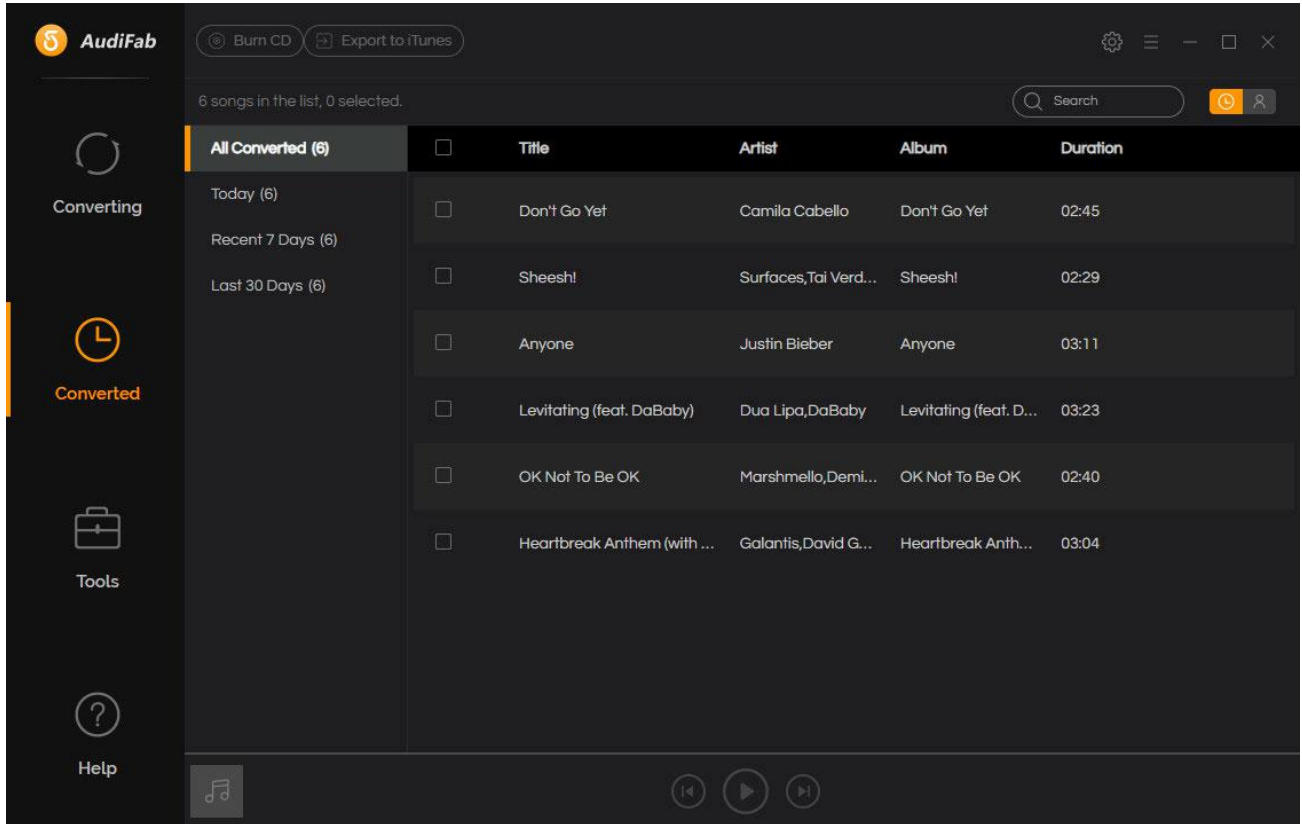

Title	Artist	Album	Duration	Status
Heartbreak Anthem (with David Guetta & Little Mix)	Galantis, David Guetta...	Heartbreak Anthem (...)	03:04	✓
OK Not To Be OK	Marshmello, Demi Lov...	OK Not To Be OK	02:40	✓
Levitating (feat. DaBaby)	Dua Lipa, DaBaby	Levitating (feat. DaBa...	03:23	✓
Anyone	Justin Bieber	Anyone	03:11	85%
Sheesh!	Surfaces, Tai Verdes	Sheesh!	02:29	
Don't Go Yet	Camila Cabello	Don't Go Yet	02:45	

At the bottom of the window, there is a section for "After Converting:" with a dropdown menu set to "Open the output folder" and an "Abort" button.

Converted Spotify Music

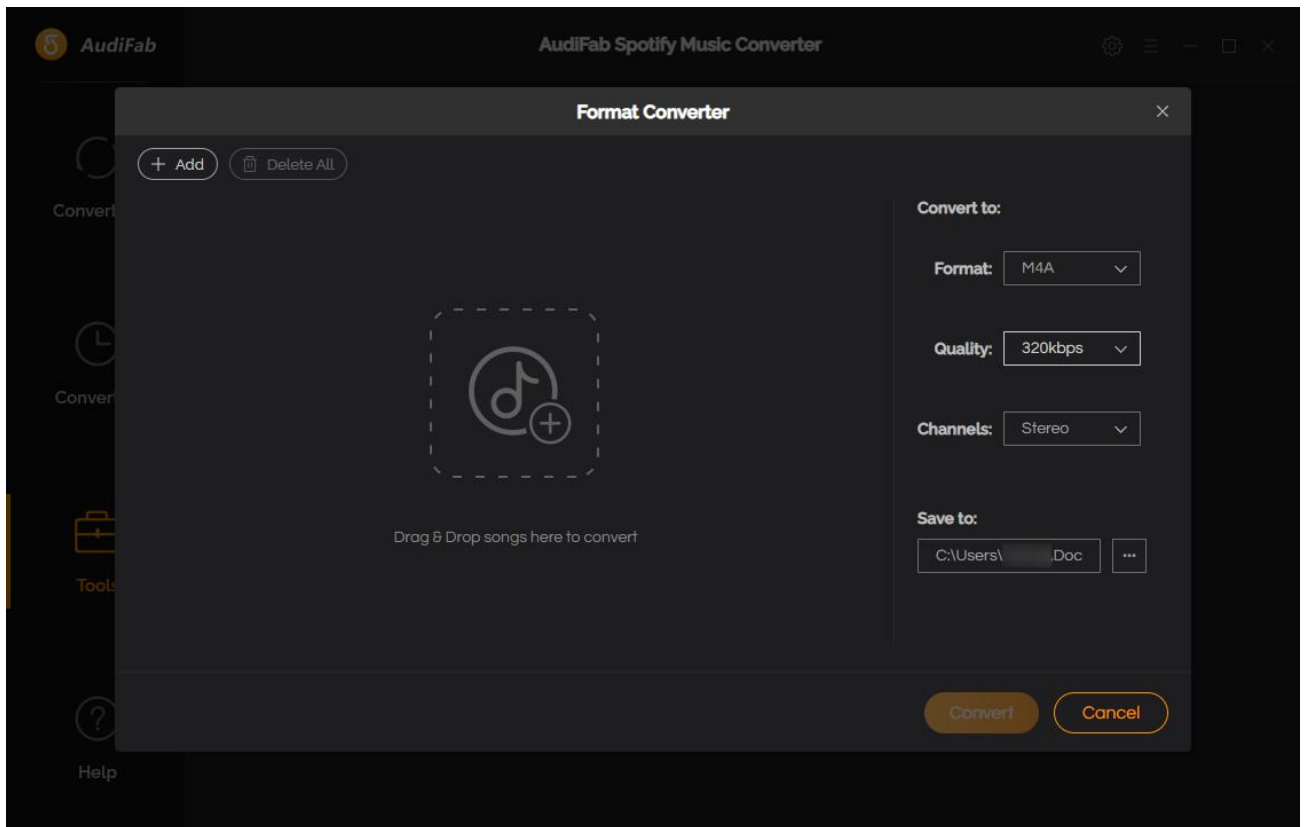

Once the conversion is completed, click the **Converted** tab and you can check all the songs that have been converted successfully. Where can I find the downloads? Just go to the output folder.

Format Converter

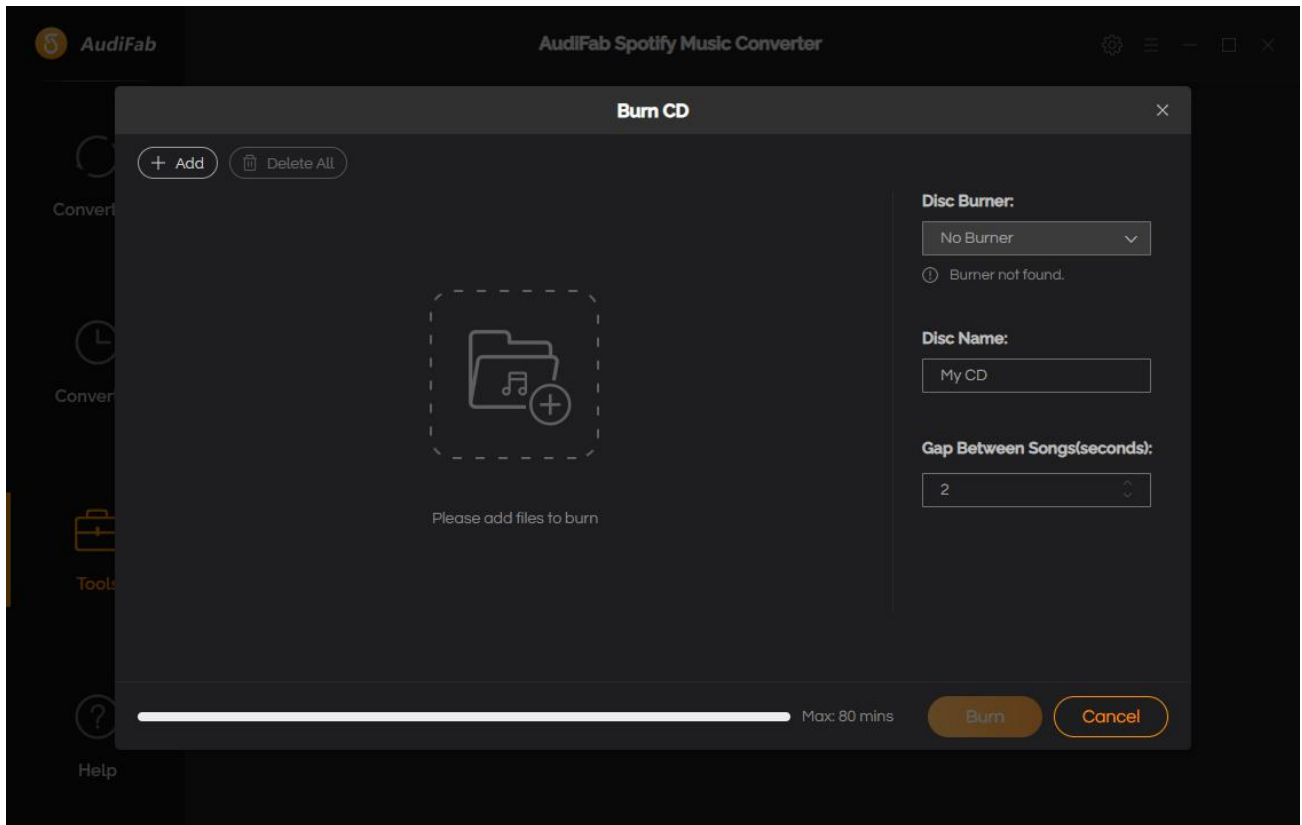

This tool allows you to convert your **local music files** to **MP3/M4A/FLAC/WAV/OGG** format.

Burn Spotify Music to CD

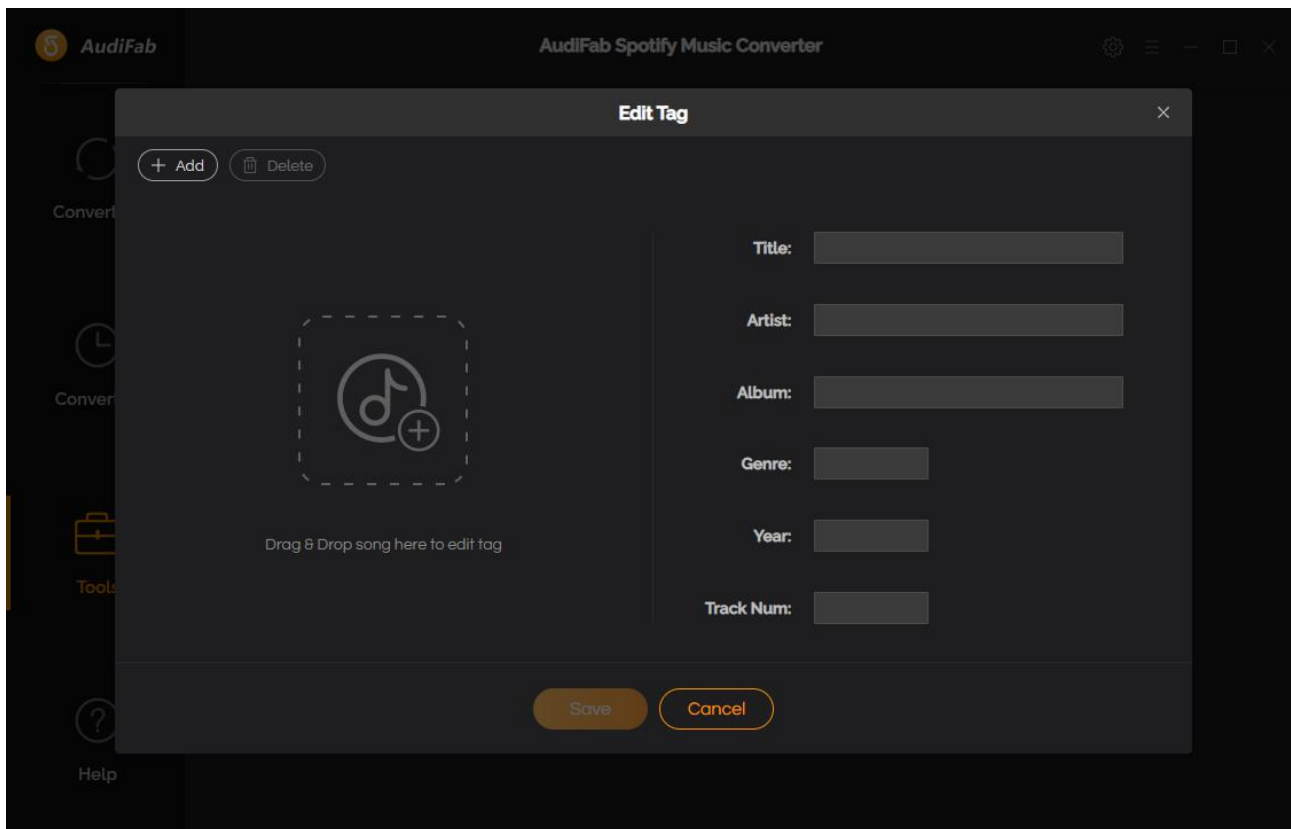

This tool allows you to burn converted and existing music files to a CD with a maximum of 80 minutes.

Edit Tag

This tool allows you to **edit ID3 tag** of a song. You can change the information of 'Title', 'Artist', 'Album', 'Genre', 'Year' and 'Track Number'.
