PURCHASE & REGISTRATION

• Purchase Windows Version of AudiFab Spotify Music Converter

• Register Windows Version of AudiFab Spotify Music Converter

Purchase Windows Version of AudiFab Spotify Music Converter

Quick Link: To buy a license key for the Windows version of AudiFab Spotify Music Converter, click Here.

1. Why should I buy Windows version of AudiFab Spotify Music Converter?

AudiFab Spotify Music Converter Windows version is a shareware, and the trial version limits users to convert the **first minute** for each audio for sample testing. After purchasing the program, you will be offered a license with your registration e-mail and key code which will unlock the trial version limitation.

2. What benefits do I have after registration?

- You can **convert Spotify songs without time limitation**.
- You can enjoy lifetime FREE upgrades to the latest versions of the same product.
- You can enjoy FREE technical supports.
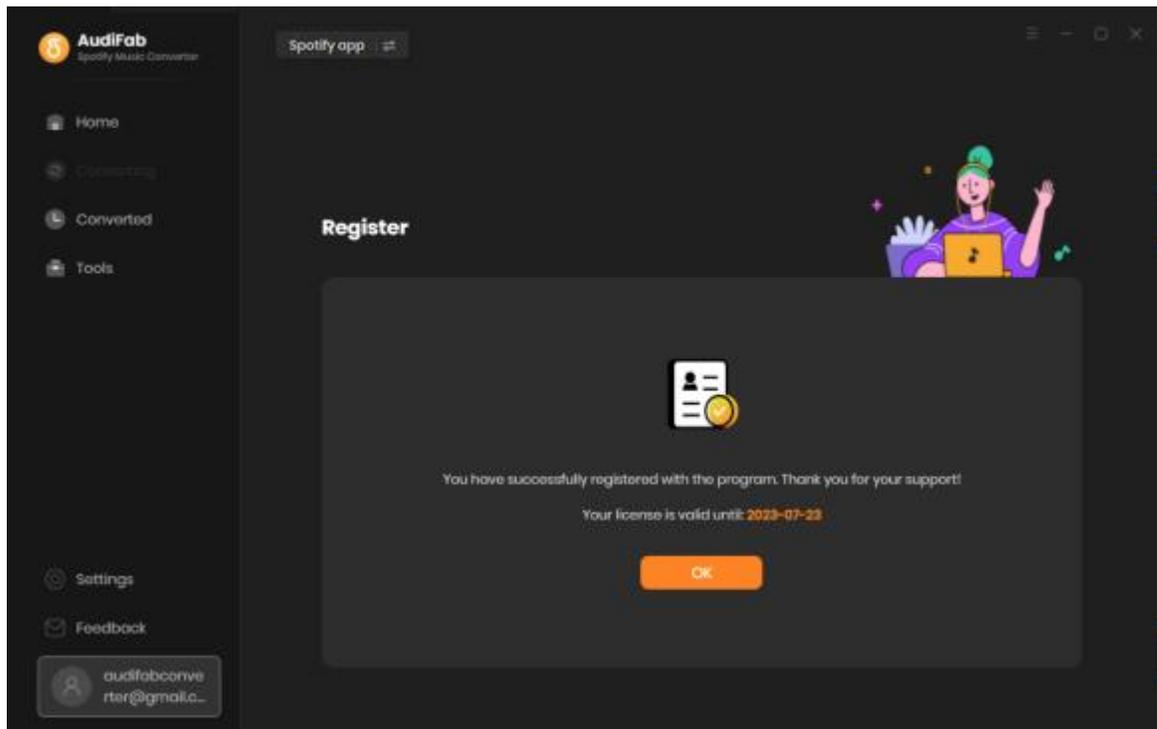

Register AudiFab Spotify Music Converter for Windows

Step 1: Run AudiFab Spotify Music Converter on PC, and click the " ⊟ " icon > **Register** to open the registration dialog and fill in with your registration info.
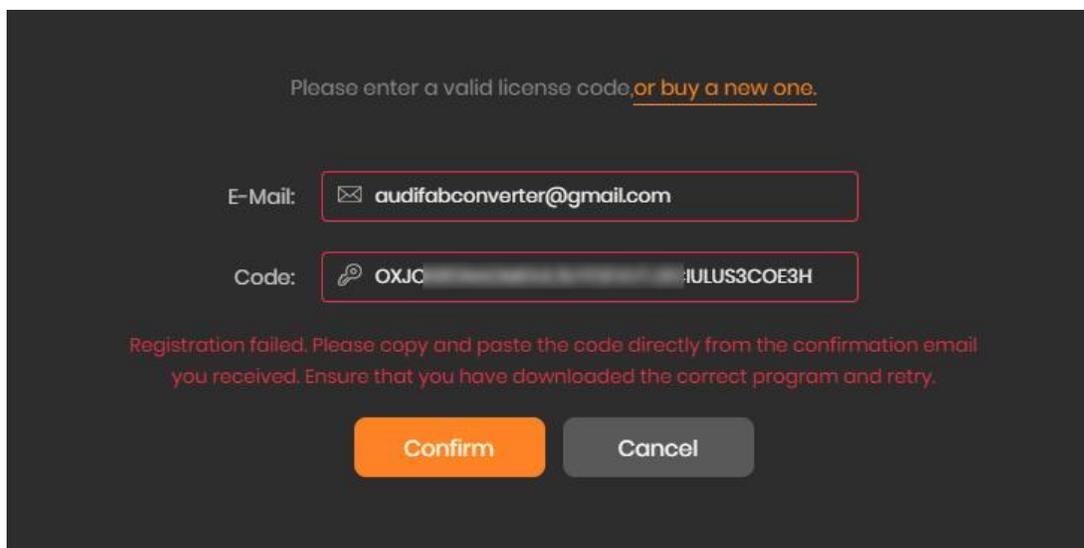

Step 2: After you finish the registration, the limitation of the trial version will be removed.

Note:

Make sure both the Email address and key code are the same as what we provided in the confirmation email after purchasing the program. if not, an error message will pop up as below:
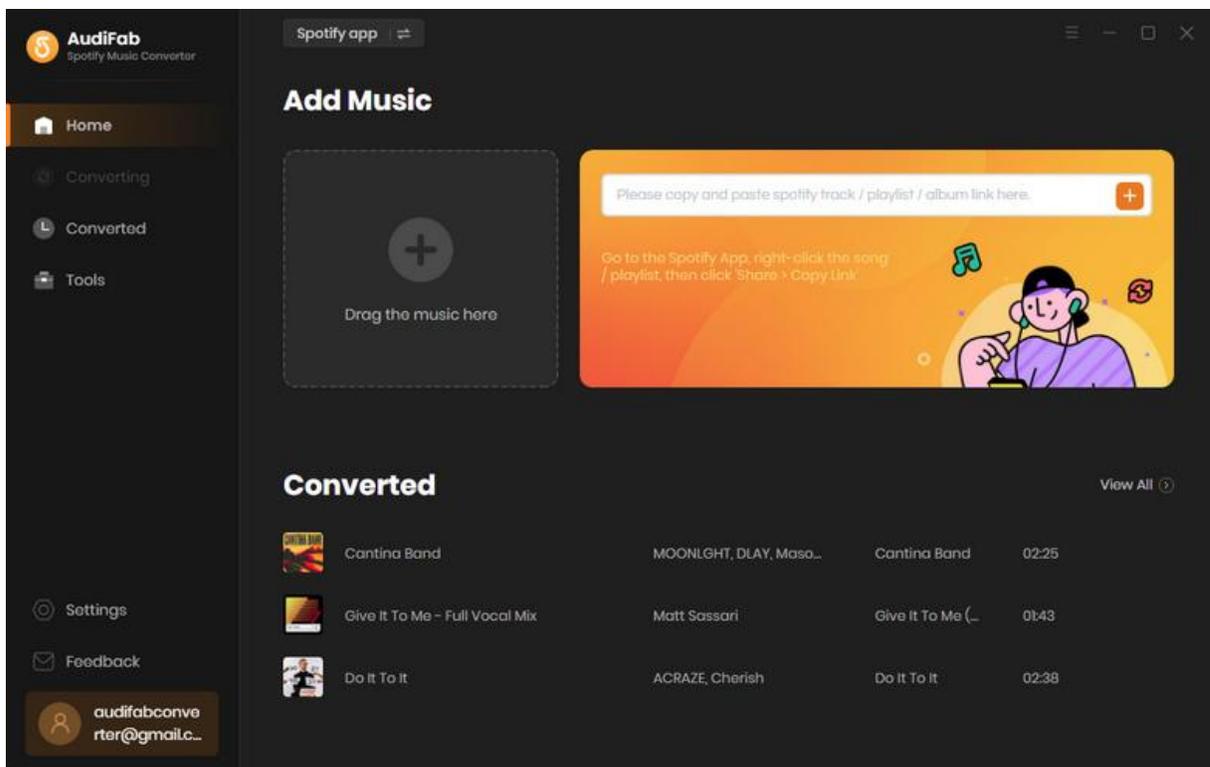

INSTALLATION & INTERFACE

Installation

To install this product, please follow the steps below:

1. Download AudiFab Spotify Music Converter Windows version from Download page.

2. Double click the installation file **audifab-spotify-music-converter.exe** to start installing the program on your computer.

3. Follow the instruction to finish the installation.

Main Interface

After you launch AudiFab Spotify Music Converter Windows version, you will see the main interface below:

Menu

When clicking the menu button ≡ , you will see the menu list like this:

Language, Appearance Bar

Now, AudiFab Spotify Music Converter (Windows version) supports over 25 languages. By clicking the Settings button on the lower left, scroll down to General section > Find Languages/ Appearance. You're able to switch the current language/skin of the AudiFab program to another language/skin.
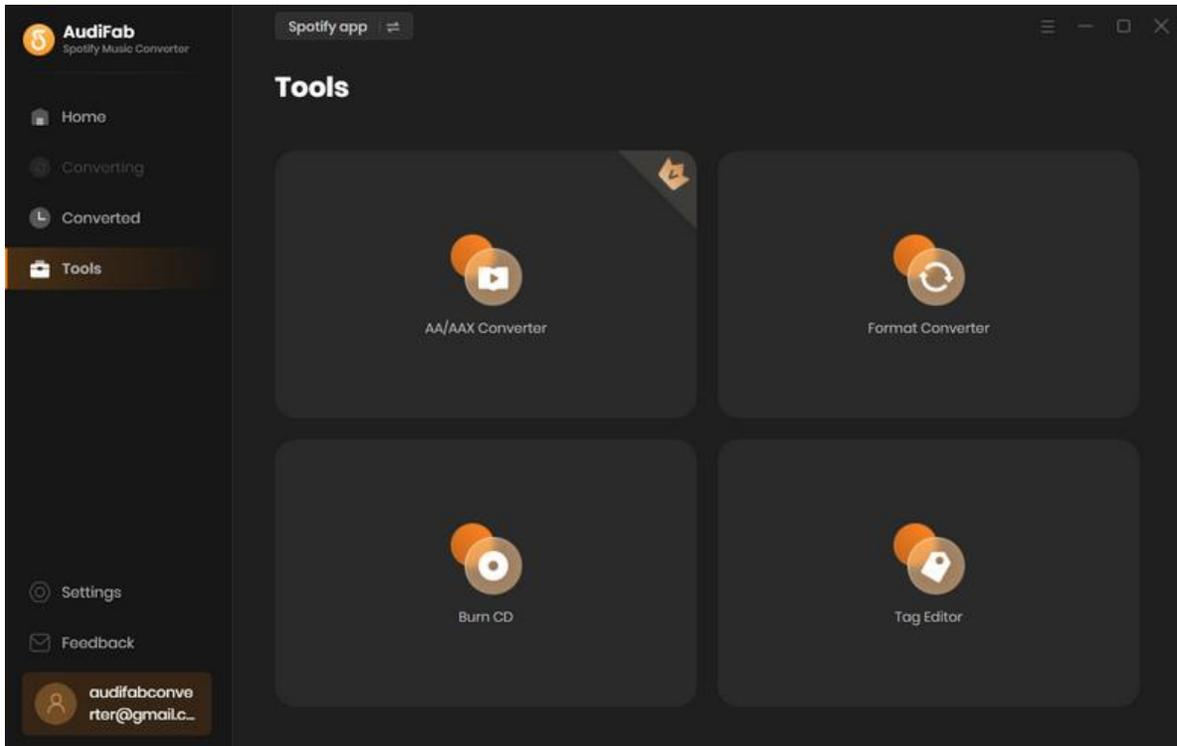

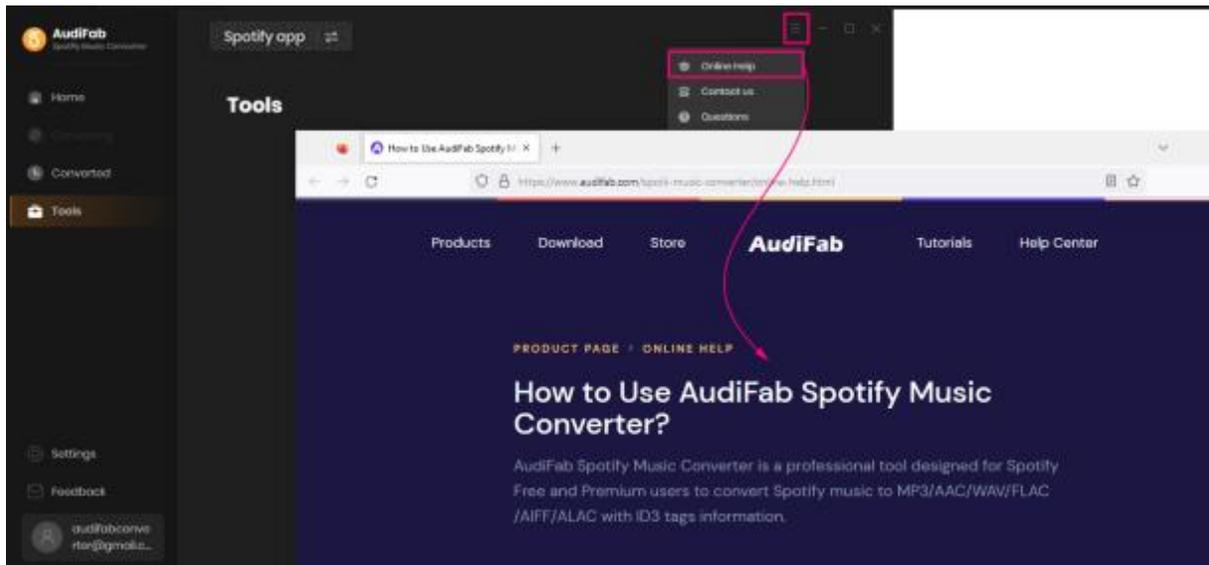

Tools

The 'Tools' section on AudiFab has 3 value-added features for better user experience. The features are 'Format Converter', 'Burn CD', and 'Edit Tag'.

Help

AudiFab's 'Online Help' section includes almost all common questions and you can find answers for common issues. This could help you to save time to fix the problem.
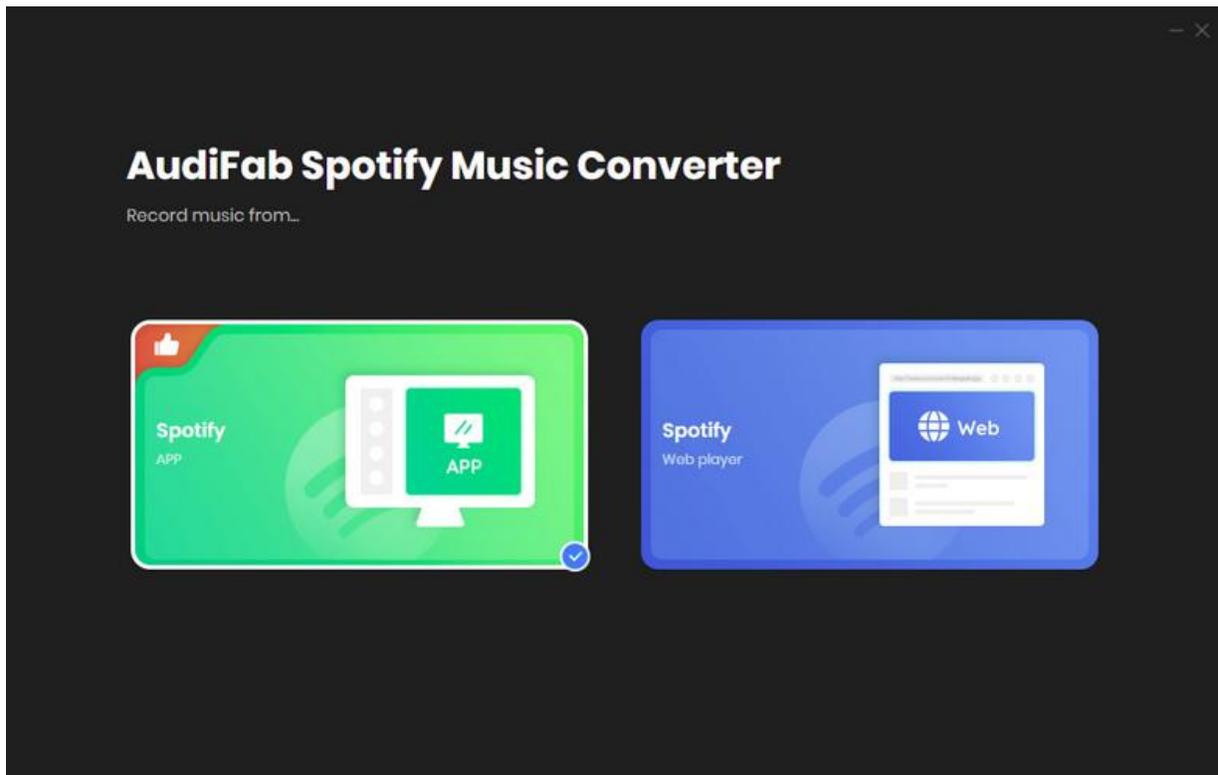

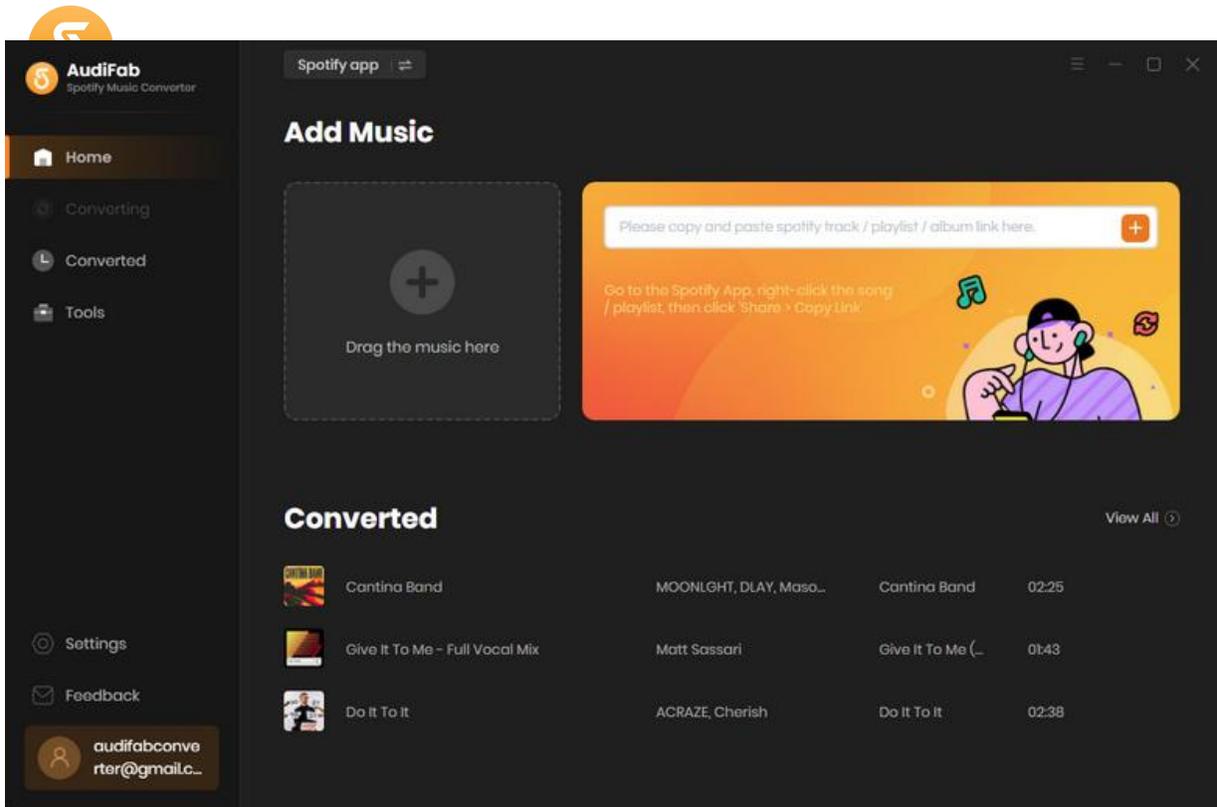

# TUTORIALS

Choose Record Spotify Music from App or Web

Open AudiFab Spotify Music Converter for Windows, first choose download music by Spotify App (convert songs at 10x speed with the best quality), or Spotify Webplayer (download songs at 10x speed without Spotify app) . Next time, if you want to change this, you can click the [Spotify app ⇌] icon on the upper left of the AudiFab interface. Here we suggest use Spotify App.
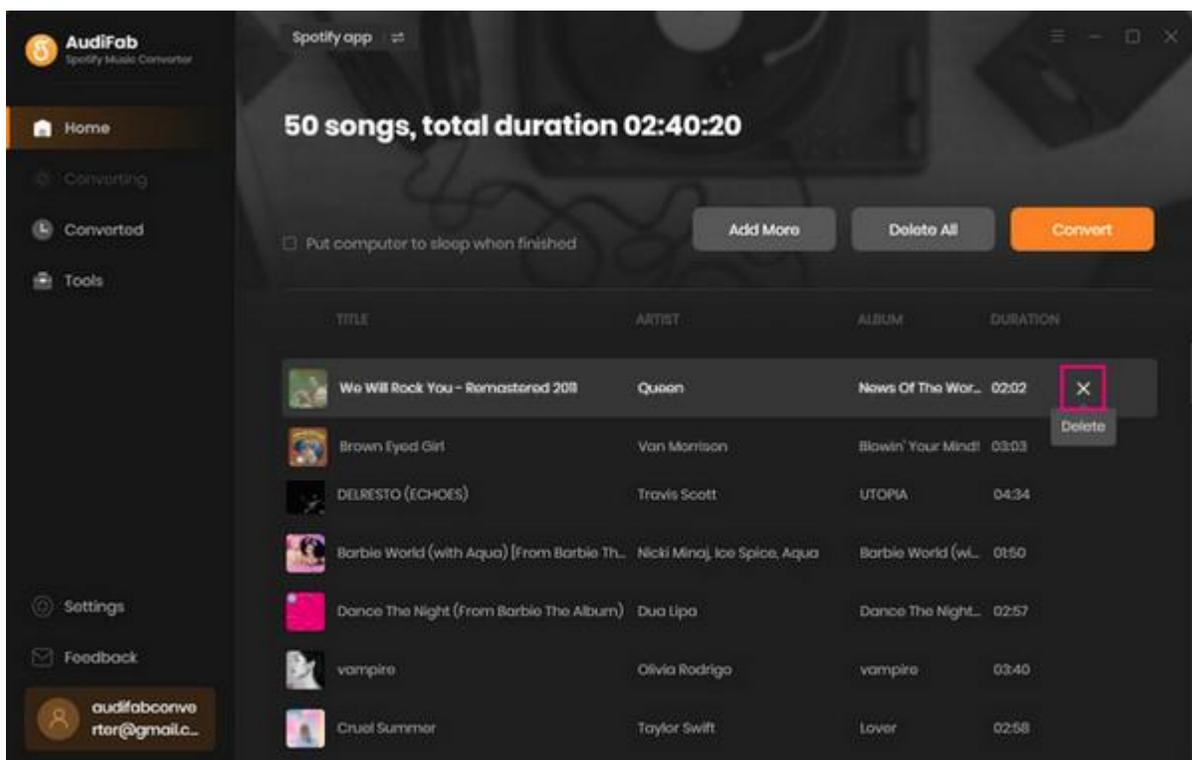

Import Spotify Music

Drag & drop songs, an album, an audiobook, a podcast or a playlist from the Spotify app to AudiFab. AudiFab would read the URL automatically and list out the songs. Check the titles that you'd like to export to your local drive and then click **Add**.

Delete Spotify Music

After clicking Add, all tracks that you need to convert will be listed below. If you still want to **delete some files** now, just move your mouse on the file and there is a small ✕ to delete the file. If you think you don't want all of them, there is a (🗑 Delete All) button.
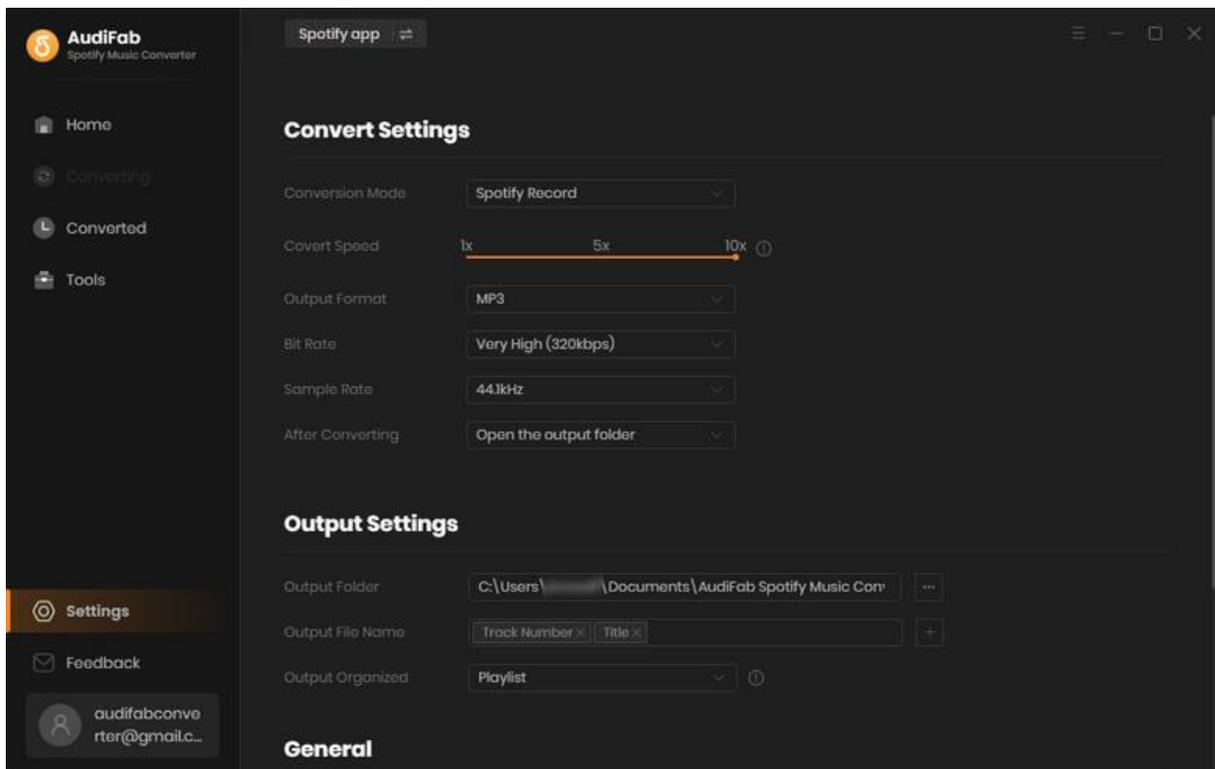

Adjust Output Settings

Click the ⚙ Settings button on the lower left, allowing you to choose the **output format** (MP3/AAC/WAV/FLAC/AIFF/ALAC), specify the **output folder**, customize how you'd like to name and sort out the converted files, etc. On the lower section of setting window, you can specify output folders organized by Artist, Album, Artist/ Album, Album/ Artist or None.
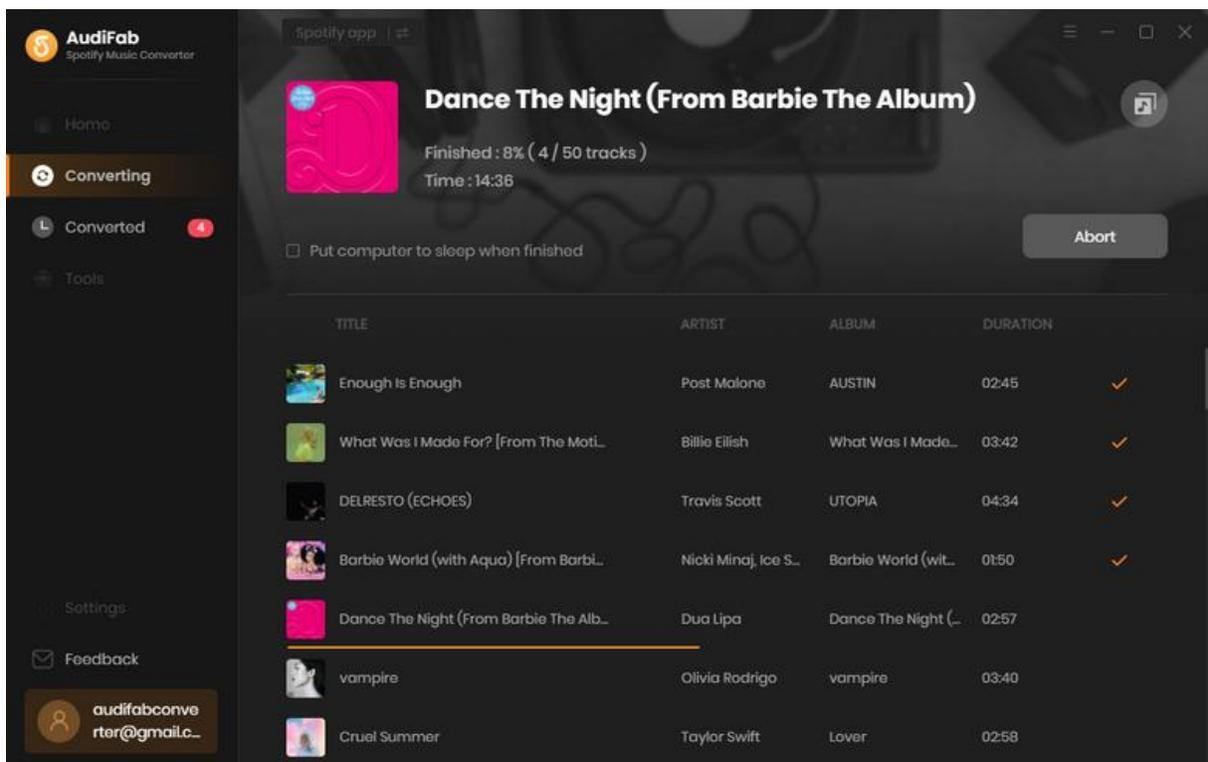

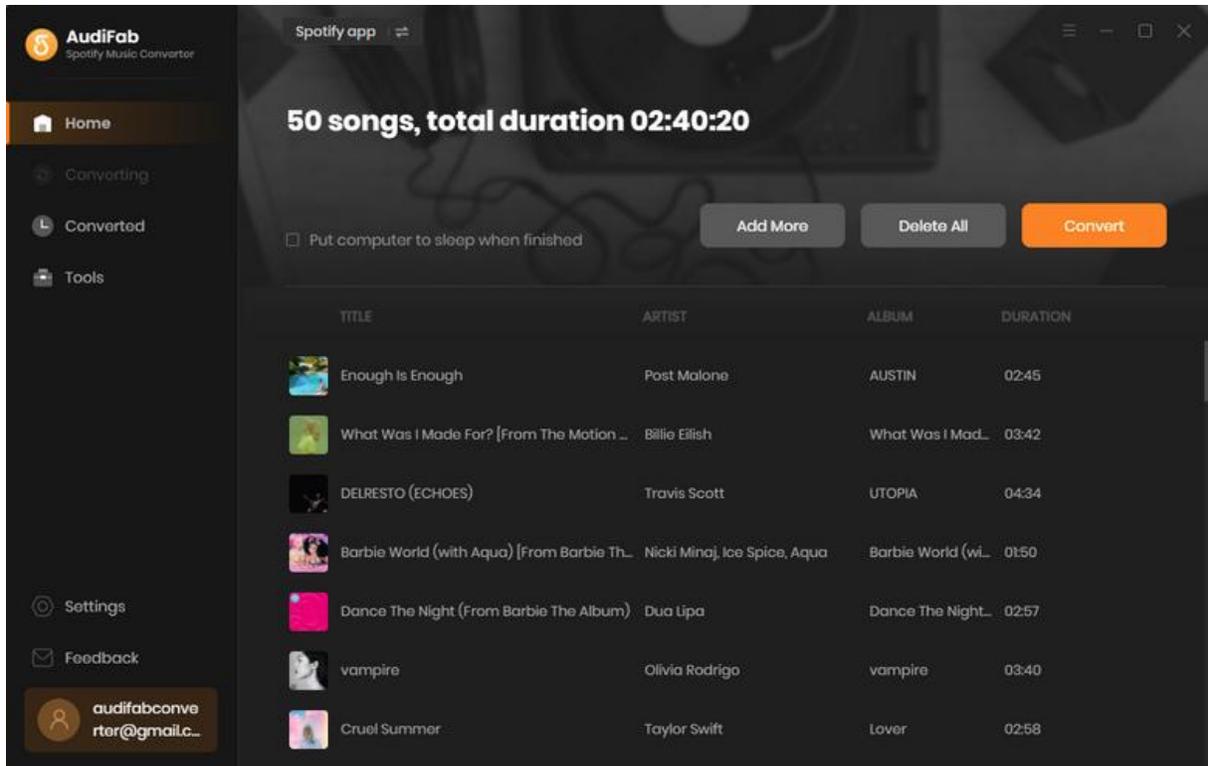

- ❖ Conversion mode: Spotify Record, Intelligent Mode, YouTube Download
- ❖ Output Format: MP3, AAC, FLAC, WAV, AIFF, ALAC
- ❖ Output Quality: 128kbps, 192kbps, 256kbps, 320kpbs
- ❖ Sample Rate: 44.1kHz, 48kHz, 96kHz, 192kHz
- ❖ Output File Name: Track Number, Title, Artist, Album, Playlist Index, Year
- ❖ Output Folder: Create a folder on computer to save the songs.
- ❖ Output Organized: None, Playlsit, Artist, Album, Artist/Album, Album/Artist, Playlsit/Album, Playlsit/Artist.
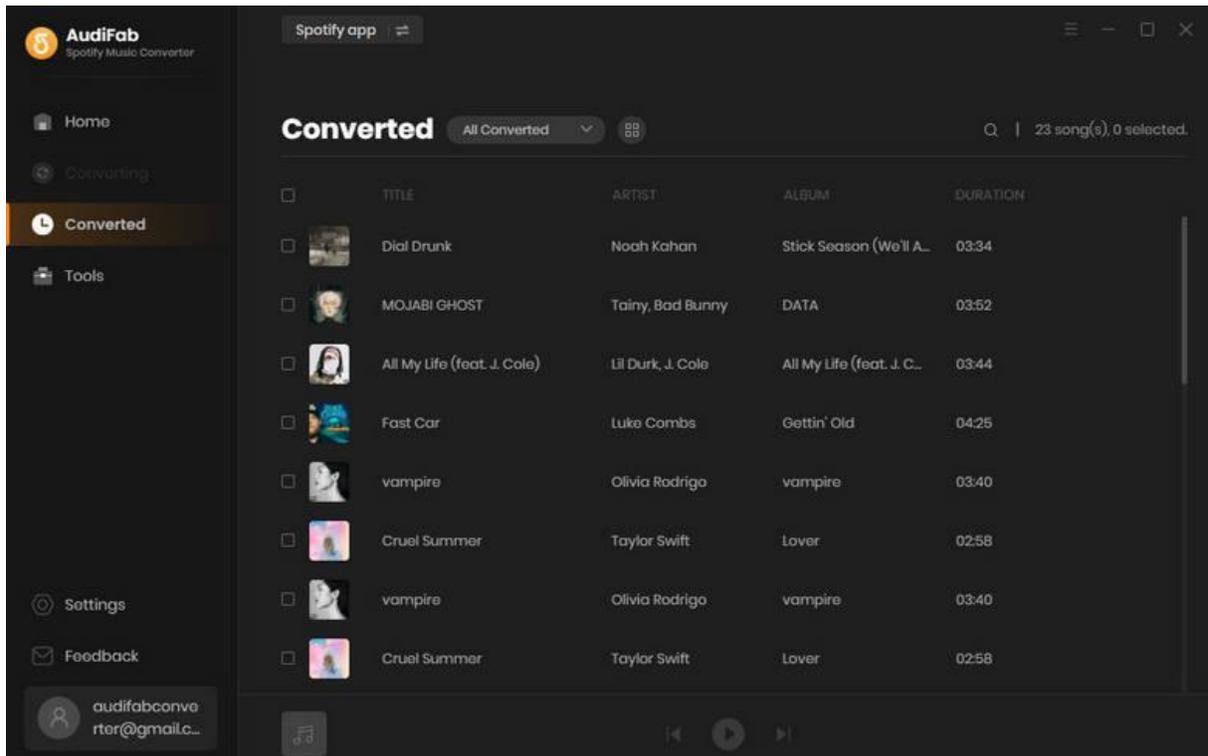

Convert Spotify Music

Click the **Convert** button on Home and AudiFab would immediately start exporting the Spotify songs to your computer.
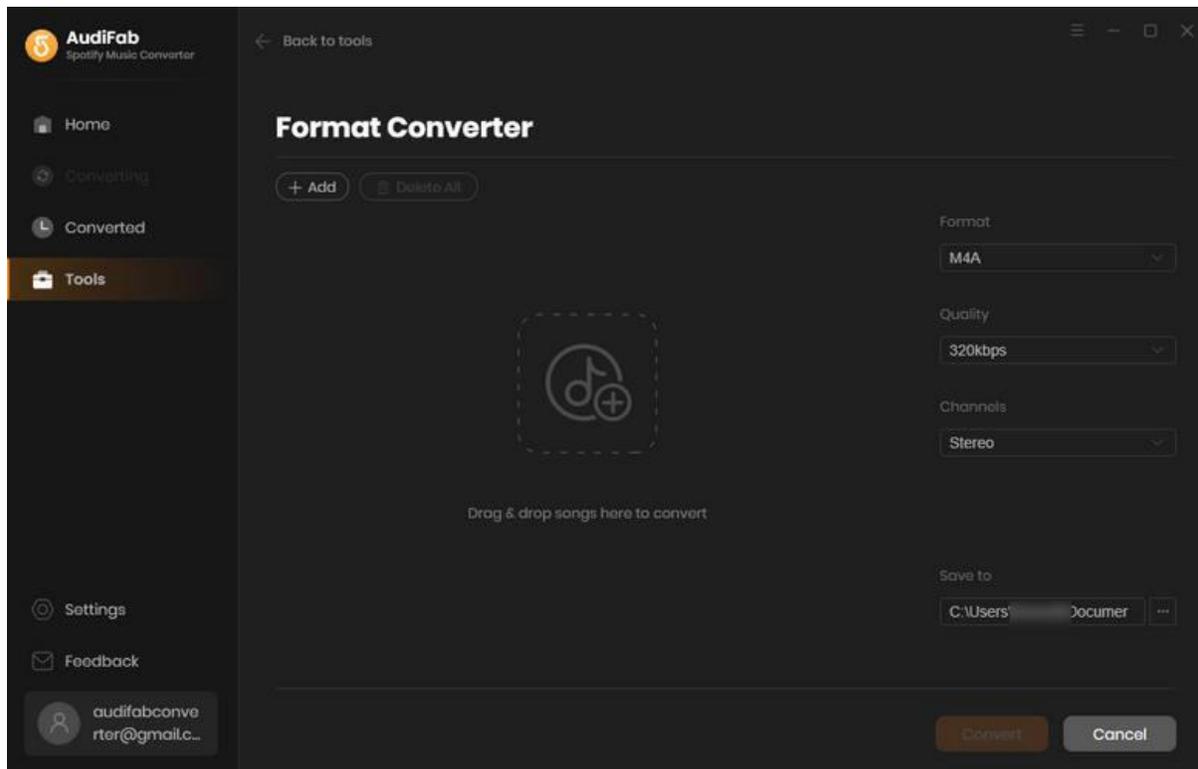

Converted Spotify Music

Once the conversion is completed, click the **Converted** tab and you can check all the songs that have been converted successfully. Where can I find the downloads? Just go to the output folder.
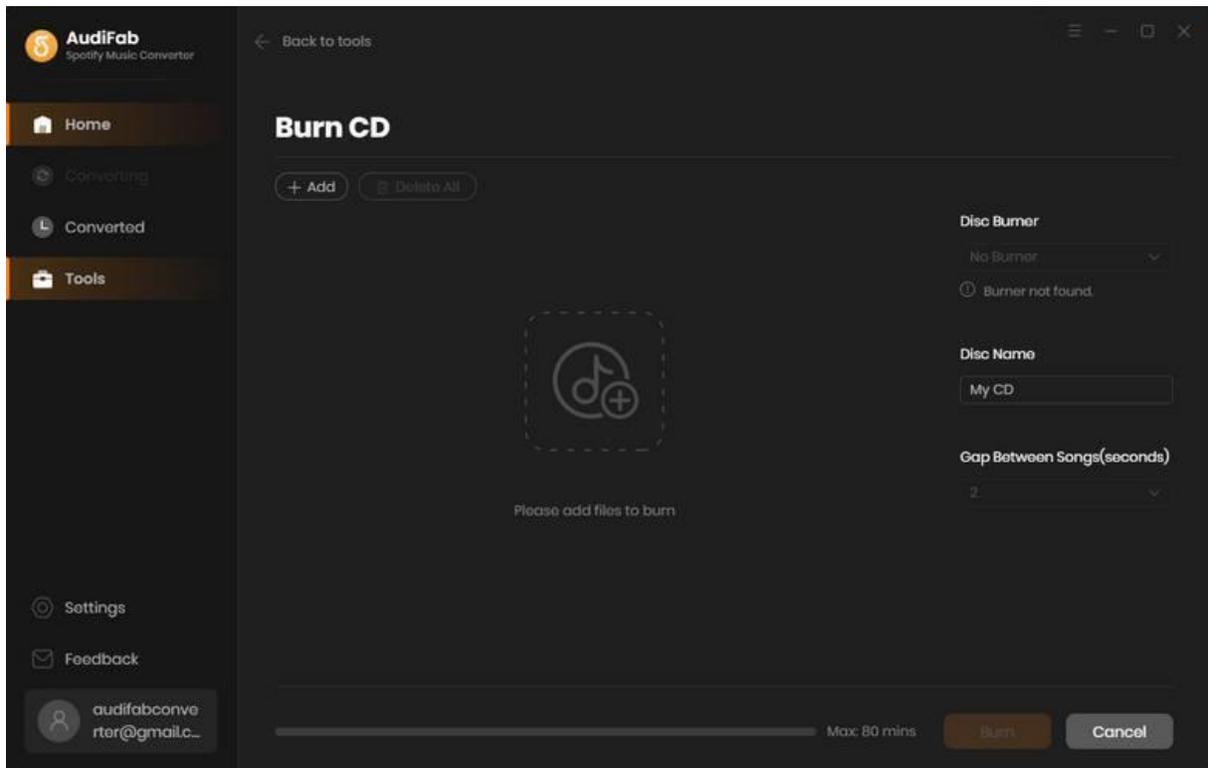

Format Converter

This tool allows you to convert your **local music files to MP3/M4A/FLAC/WAV/OGG/AIFF** format.
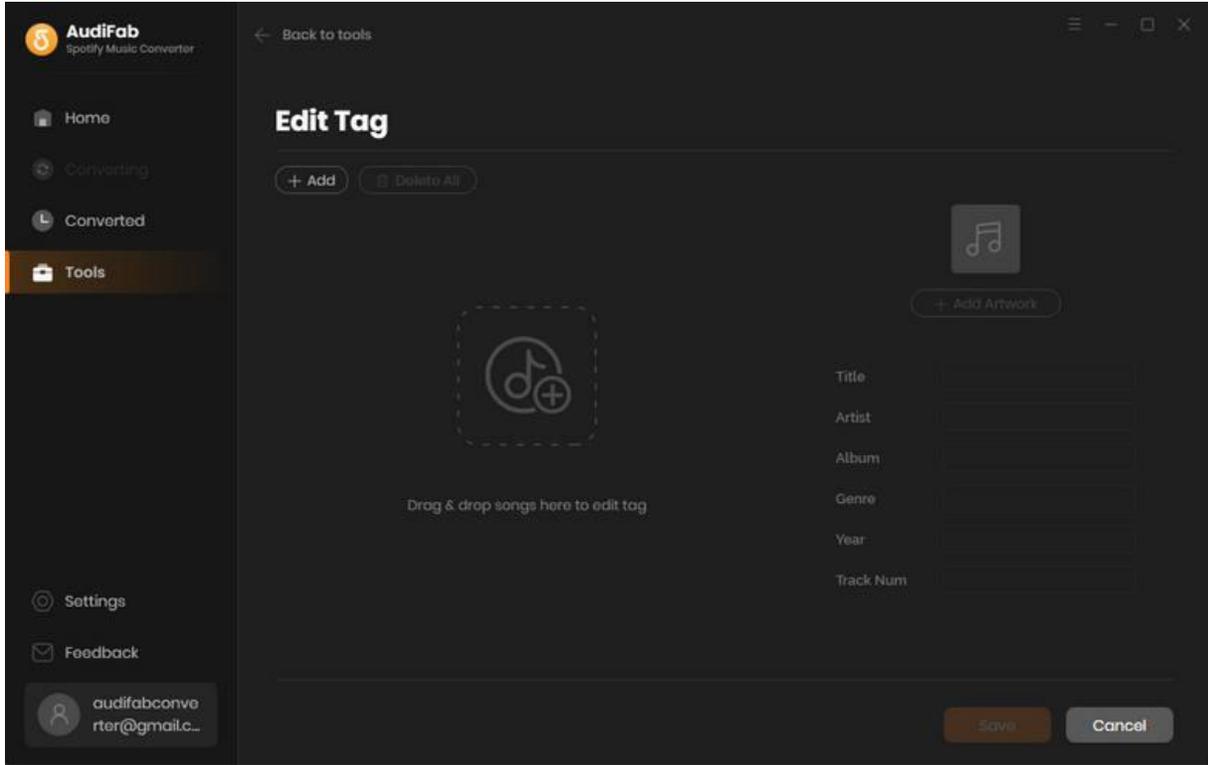

Burn Spotify Music to CD

This tool allows you to burn converted and existing music files to a CD with a maximum of 80 minutes.

Edit Tag

This tool allows you to **edit ID3 tag** of a song. You can change the information of 'Title', 'Artist', 'Album', 'Genre', 'Year' and 'Track Number'.
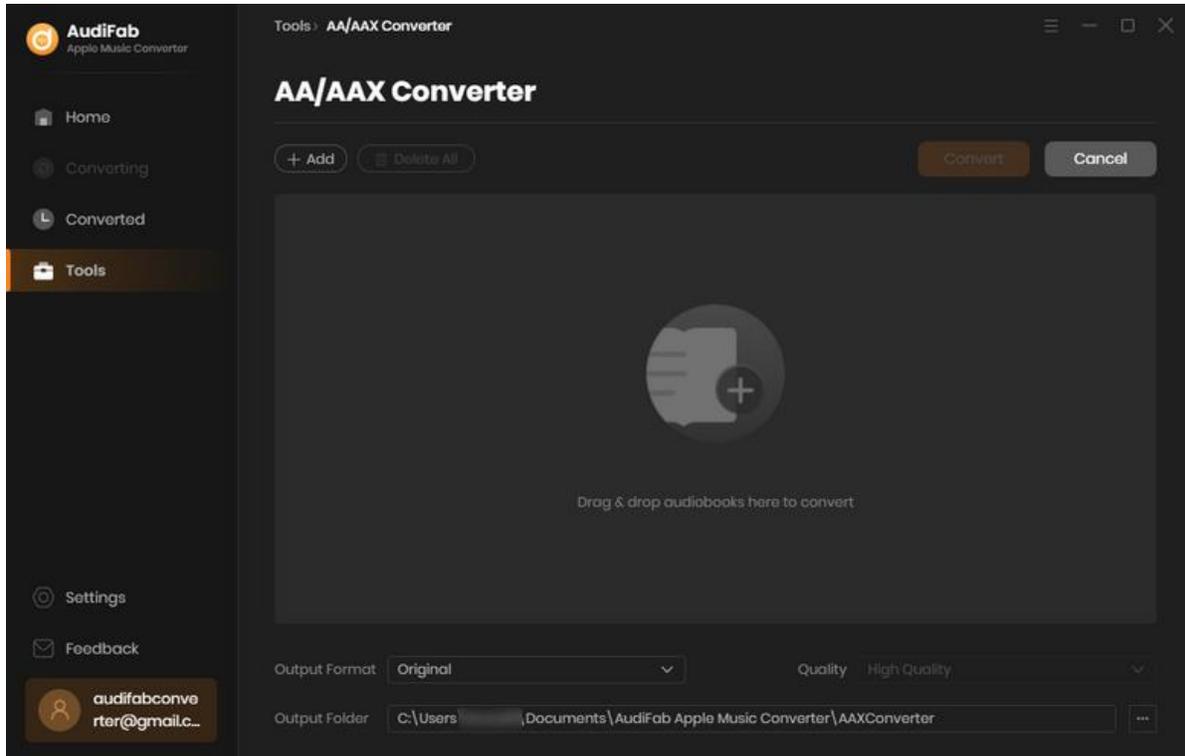

AA/AAX Converter

There is a paid tool call A/AAX Converter, which can help you **convert local aa or aax audiobooks to M4A, M4B or MP3** format easily. Navigate to "Tools" > "AA/AAX Audiobooks".
